

Storyline: Profitability and Discount Band Comparison Across Countries and Segments

Analysis:

Low and Medium discounts generate higher profits across countries.
 Government and Midmarket segments are the strongest profit contributors.
 High discounts reduce profitability, especially for Channel Partners.

Result:

Focus sales on Government and Midmarket segments with Low–Medium discounts.
 Avoid heavy discounting to protect profit margins.

Storyline:

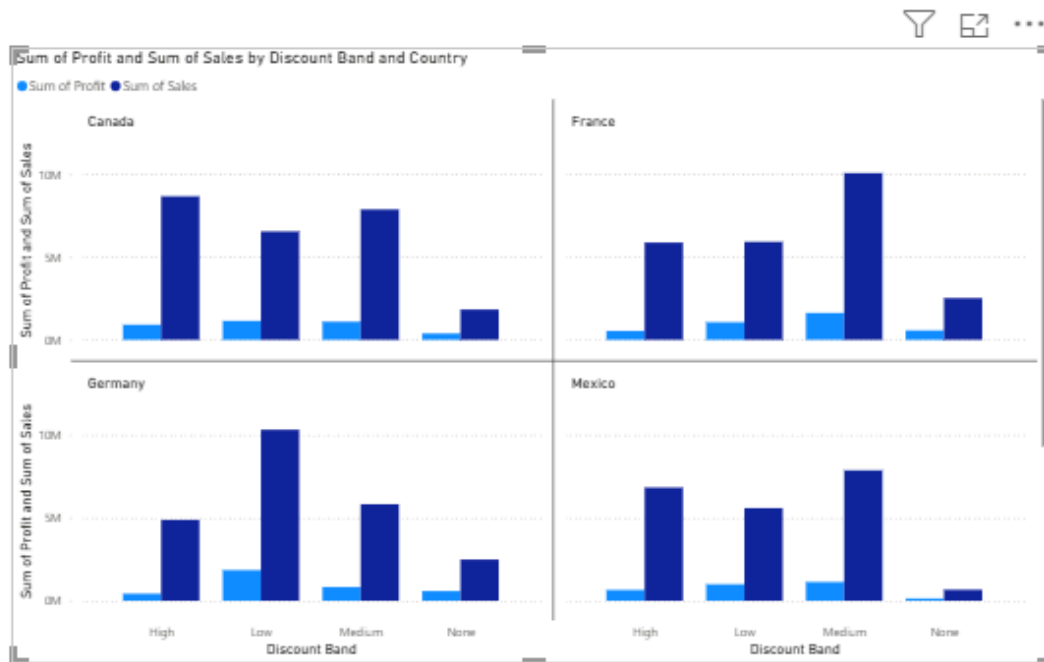

The chart presents a country-wise distribution of total profit to understand which markets contribute most to overall performance.

Analysis:

France has the highest profit share, with Germany and Canada contributing almost equally strong profits..

Result:

Overall profits are well balanced across countries, with France as the top performer and growth opportunities existing in the USA and Mexico.

Storyline:

The visual shows how sales and profit change across discount bands in different countries.

Analysis:

Low and medium discounts increase sales and maintain better profits, while high discounts raise sales but reduce profit margins across countries.

Result:

Low to medium discounts are the most profitable, and heavy discounting should be limited to protect margins.
